In addition to the contents of this Operations Manual, the Subrecipient is required to follow all DHHS policies, regulations and statutes.

The Operations Manual provides direction to the Subrecipient and DHHS on expectations for standardization in the operations and service delivery of the Subgrant.

2. Subrecipient and DHHS Roles and Responsibilities

The roles and responsibilities is a framework to support family-centered, child-focused system development. The Child Welfare Reform is a concept built on a system of care design, which provides an integrated structure for children and families to be supported through the child welfare process.

The roles and responsibilities are built on the following core tenets:

- Partnering with children, juveniles, families and our lead agency, to support family driven decision making and family centered practice;
- Effective and timely communication with families, our lead agency and external stakeholders to support outcome achievement;
- Mutual decision making of key case decisions to better achieve safety, permanency and well-being of families; and
- Ensuring that reasonable efforts and best interest are provided to children and families.

The roles and responsibilities outlined within this section are not intended to reiterate policy or regulations. They should be viewed as a fluid design, which can be modified to benefit children, youth and families to achieve successful outcomes. The purpose of the role and responsibility matrix is solely to define the obligations of the Subrecipient under this agreement.
